

# Ramalynn Academy's 2012 Science Expo

Each year Ramalynn Montessori Academy participates in a remarkable Science Expo. We are pleased to have the Upper Primary through Middle School participating. The date of the Science Expo is **Saturday, February 11<sup>th</sup> from 2:30-4:00pm.**

We would like to see a variety of presentations in the area of science. Students can check out books from Ms. Jane's class or from their local library for ideas. The following websites also provide ideas and suggestions for Science Project topics.

Science Buddies: [www.sciencebuddies.org](http://www.sciencebuddies.org)

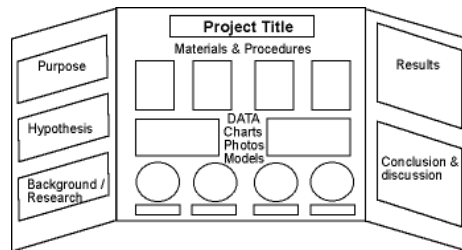

A Science Fair Project Resource Guide: [www.ipl.org/youth/projectguide](http://www.ipl.org/youth/projectguide)

Science Fair Topic ideas: [www.all-science-fair-project.com](http://www.all-science-fair-project.com)

After your child has chosen their topic, the following four scientific steps are required:

1. Question (Example -Why does cacti have hair?)
2. Methods
3. Results
4. Conclusion

Prepared Science kits will not be accepted. Use a three-sided poster board to display project. On the poster board, display the four scientific steps of research, as stated above. See illustration.

Ages 8 and up are required to hand in a written explanation for their Science Project. The report and display board are due by **Monday, February 6th.** Return the following topic slip below by **Wednesday, January 18<sup>th</sup>.**
