

Our Vision – Present and Future

Our challenge is to recruit the very best of this new generation of teachers and we are fortunate that many of these young bright teachers are at our doorstep because of the high reputation that we have built over the years within the educational community in the state.

Ramalynn has wisdom and the knack to identify the best and the brightest teachers and educate them about the benefits and joys of teaching at an independent school like Ramalynn. We are fortunate to have teachers who possess the rare blend of expertise and empathy.

Ramalynn is a testament to the proficiency and creativity of our faculty and the way in which they inspire our students to innovate, create and achieve.

“Our new generation of teachers”

As our faculty evolves so too will our curriculum and academic planning. As educational leaders, Ramalynn faculty thinks in active ways about continuously shaping the Ramalynn experience to meet the shifts in technology and globalization in an interdependent world.

Ramalynn is an exceptional school, but we are not interested in resting on our laurels. We have to keep thinking in disciplined and creative ways about how we continue to improve by blending the best of our scholastic traditions with our understanding about how children think and learn.

Lynn Ramalingam
FOUNDER of RAMALYNN ACADEMY
